PROFESSIONAL SUMMARY

Technical manufacturing professional with 5+ years of experience in production operations, quality assurance, team leadership, and hands-on IT systems work. Skilled in Linux administration, Docker containerization, networking, DNS, and troubleshooting complex technical issues. Proven ability to improve workflows, maintain uptime, support production teams, and manage technical infrastructure in fast-paced environments.

TECHNICAL EXPERIENCE:

HOMELAB / IT INFRASTRUCTURE PROJECT

Self-Hosted Home Infrastructure Lab — Linux, Docker, Networking, Virtualization

- Built and maintain a Linux-based homelab hosting multiple containerized services using Docker and Portainer.
- Deployed and managed Home Assistant, Immich, Uptime Kuma, Nginx Proxy Manager, Ollama, Glances, and a centralized Homepage dashboard.
- Designed redundant DNS infrastructure using dual Pi-hole servers with Unbound for local DNS filtering and recursive DNS resolution.
- Configured Tailscale for secure remote access, subnet routing, exit nodes, and internal DNS resolution.
- Created UFW firewall rules to restrict services by subnet and network interface.
- Troubleshot Linux networking, DNS failures (including DNS_PROBE_STARTED), Docker networking, systemd services, permissions, and container connectivity.
- Administered an Ubuntu server built from repurposed hardware, including kernel, boot, storage, and service troubleshooting.
- Designing a second homelab expansion with Proxmox VE virtualization, NAS storage, managed 2.5GbE switching, VLAN planning, patch panel installation, and rack-mounted infrastructure.

TECHNICAL SKILLS:

Linux (Ubuntu) • Docker • Portainer • Proxmox VE • Pi-hole • Unbound • Tailscale • UFW • Nginx Proxy Manager • DNS • TCP/IP • DHCP • VPN • SSH • Systemd Virtualization • NAS/Storage • Monitoring (Uptime Kuma, Glances) • Home Assistant Container Networking • Reverse Proxying • Firewall Configuration • Git (basic)

EXPERIENCE:

Production Tester — Hydraforce, Lincolnshire, IL

March 2026 – Present

- Provided technical support during production runs, assisting with troubleshooting and workflow issues.
- Streamlined workflows by recommending improvements based on daily operations.
- Rejected products and materials not meeting specifications.
- Removed defects such as chips, burrs, corrosion, and pitted surfaces to maintain quality standards.

Production Setter — Hydraforce, Lincolnshire, IL

March 2025 – February 2026

- Delivered materials and components to production lines to maintain continuous workflow.
- Managed inventory levels of consumables including Loctite, STP oil, towels, and other supplies.
- Cleaned and inspected parts according to quality standards.
- Supported production teams by keeping workstations stocked and organized.
- Assisted with material handling, inventory management, and general production support.

Production Team Leader — Hydraforce, Lincolnshire, IL

March 2023 – October 2024

- Led a team of 10 employees, providing training, guidance, and conflict resolution.
- Assigned responsibilities, prepared schedules, and organized daily workflow.
- Ensured adherence to safety protocols and quality standards.
- Conducted equipment audits and product quality checks.
- Evaluated employee performance and coordinated training improvements.
- Collaborated with suppliers and other departments to ensure smooth production flow.

Production Tester — Hydraforce, Lincolnshire, IL

January 2022 – February 2023

- Performed detailed testing on components and assemblies.
- Participated in continuous improvement initiatives to increase productivity.
- Maintained accurate test records and documented findings.
- Identified process improvement opportunities and proposed new strategies.

Assembly Line Production Worker — Hydraforce, Vernon Hills, IL

June 2021 – November 2021

- Operated hand tools, power tools, and production equipment.
- Inspected finished products for quality and accuracy.
- Loaded and unloaded materials and followed safety procedures.
- Maintained a clean and organized work area.

EDUCATION

High School Diploma Mather High School — Chicago, IL (June 2018)
